

## About NetSmartz

NetSmartz® Workshop is an educational program that teaches children ages 5-17 about online safety and digital citizenship. NetSmartz offers free, age-appropriate resources including videos, games, e-books, webcomics, presentations, classroom lessons and tip sheets to help children learn how to protect themselves and their friends online. Parents, educators and law enforcement use these materials to engage children in discussions about online issues ranging from online privacy to cyberbullying. NetSmartz is a program of the National Center for Missing & Exploited Children®.

NetSmartzKids introduces younger children to basic online safety and digital citizenship lessons using animated characters—Clicky, Tera, Nettie and Webster. These resources teach children how to identify online dangers and practice safer behaviors through videos, music, games and e-books. Visit [NetSmartzKids.org](http://NetSmartzKids.org) for new videos and activities every month.

### Program goals

- Educate children to recognize online risks
- Engage children and adults in a two-way conversation about online safety and digital citizenship
- Empower children to report online abuse or victimization

### Presentation length

Approximately 30 minutes

### What's in this presentation?

This is an assembly-style personal safety presentation for children in grades K-2 featuring the NetSmartzKids characters. Kids will learn about the four NetSmartz rules with a live presenter who engages them through discussion, quizzes and animated videos.

### Children will learn:

- What to do when they see inappropriate content online
- How to protect their personal information
- Why they should never agree to meet face-to-face with someone they've met online
- How to use good netiquette and what to do if someone is being mean to them online
